Todd Yeager

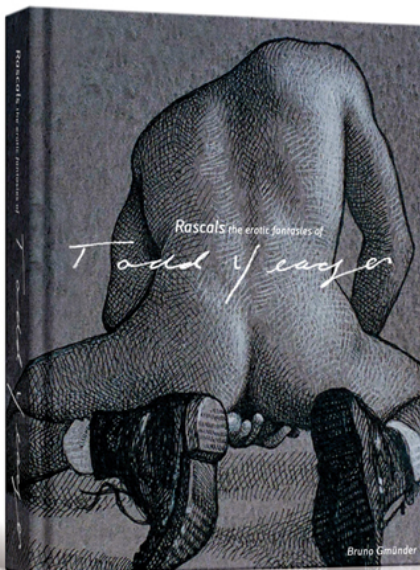

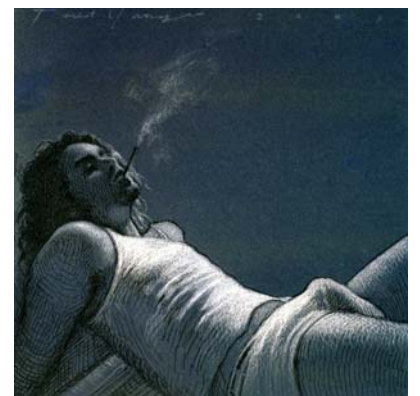

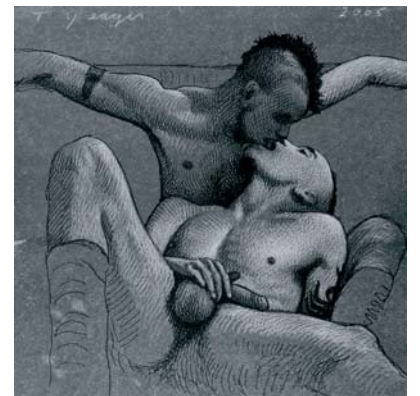

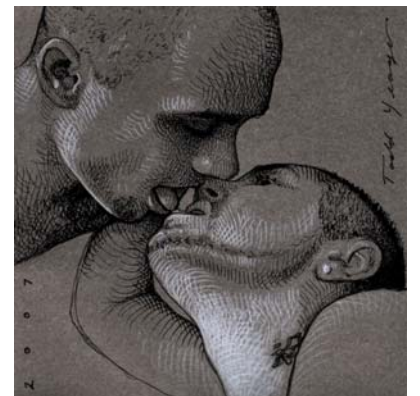

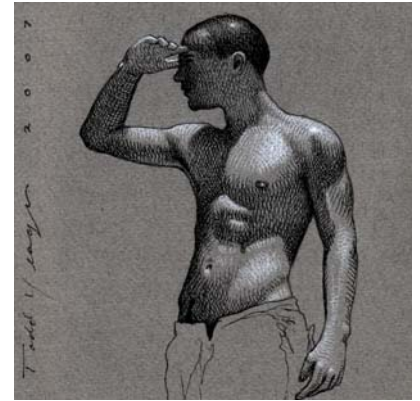

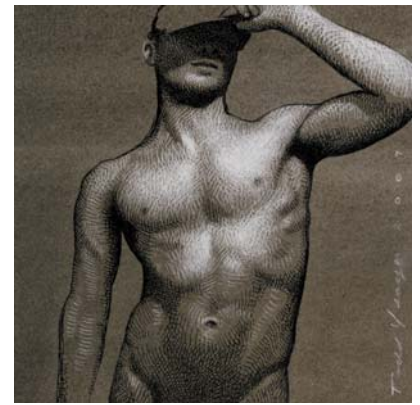

## Rascals, the erotic fantasies of Todd Yeager

Todd Yeager's art is strong stuff. His drawings take us on a bracing and thrilling journey to the dark depths of manly desire and sexual abandon! Unsoiled, clean-shaven youth is not in Yeager's vocabulary. Instead, his artistry leads us in search of unadulterated masculinity. The unexpected in-tensity of these monochrome drawings sends a shiver down the spine of the observer and reveals the promising potential of this one-of-a-kind artist.

Yeager's 96-page strong hardcover book of photography is a sexually charged work that's more a study of the masculine body than just plain eroticism. Yeager's preferred subjects are young, slim New Yorkers that he presents alone in solo portraits or going after one another in hot group scenes.

The now 42-year-old New Yorker Todd Yeager sold his first portrait at the age of twelve. Since the mid-80s he's been causing sensations with a variety of exhibitions. Member of the Leslie/Lohman Gay Art Foundation, most recently his drawings were included in the DIRTY LITTLE DRAWINGS collection, published by Bruno Gmünder in 2007.
