## David Vance

### TIMELESS

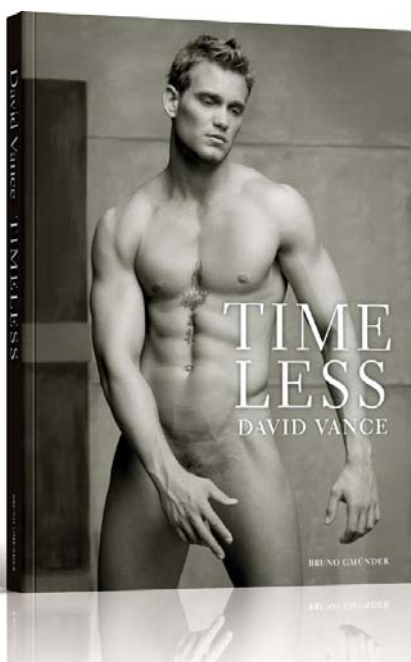

Michelangelo's "David" today is called Steve. As if the ancient Gods descended from the mountain of Olympus. This *is* how the male Gods of the antique would look like today; with athletic bodies of immaculate beauty - a kind of beauty unwilling to adapt to the sign of the times as in an eternal beautyousness. Men of timeless elegance presented in classic and romantic poses - absorbed in thought or caught in an elegant movement unaware of the viewer's presence.

These moments are captured in gorgeous black-and-white photography. If you wanted to create living images of the statues of divinities, the real men shown here help make a reality of that fantasy and prove there are still Gods among us. This is a classic imagery, which through the modern men in the images in no way seems dated.

Along with photographing men, David Vance is also a successful advertising photographer as well as editorial contributor in *Cosmopolitan*, *Rolling Stone*, *Interview* and *Men's Health*, among others. A list of some of the stars he has photographed includes such luminaries as Toni Braxton, Gloria Estefan and Sophia Loren. His first books published by Bruno Gmünder have long-since sold out.
