# LOS CHICOS

Simple and significant: **Los Chicos**—The Boys—is the title of Chilean comic artist **Aknaton**'s debut art book. And yet, is anything really simple in the universe of young men? Aknaton offers us a new interpretation of cybersex with his sexy picture book: With a little help from his image editing program he creates male sex appeal in web 2.0. Cheekily and skillfully he uses the work of well known photographers as a base to create his fantastic art. In a clever way he embodies flesh, lust and love in his digital images and creates a stunning update of sex—very 2010, full of fun and passion. Aknaton takes his adoration of the male body as an inspiration, which is to be sensed in every single picture. He's got a big talent for lavish colorations and he stylizes the anatomy of his boys in an astounding way. As you can see, **LOS CHICOS** isn't simple at all, but simply sexy.

**Aknaton** was born in 1975 in Linares, Chile, under the sign of Aquarius. Already as a teen he discovered his fascination for the human body and with the encouragement of his mother he began to draw. He studied graphic design in Santiago and specialized on comic and web design. Since 2004 he's a member of *Prismcomics*, a non-profit organization that supports lesbian, gay, bisexual and transgender comics, creators and readers.
