# DARE

Macho blokes for those, who like it big and beefy: With his first photo book **DARE** Spanish photographer **Guillem Medina** offers us a delicious mix—his men are hunky and muscular, the photos were extensively photoshopped. That's how he creates a picture world that's damn sexy, but often also appears dark and even a little threatening. He takes us on a journey back in time, ships us into the seas of rough sailor romance and presents us men who are butch and tattooed, irresistible and fascinating. His pictures are full of testosterone, but Medina does not simply rely on the attraction of his horny hunks—even though this would be easy. Sometimes he gives his artworks an ingenious vintage look, sometimes he comes across as a hunky version of *Pierre et Gilles* ... and he convinces all along. If you are not afraid of bad guys get a copy of **DARE** as soon as possible.

**Guillem Medina** was born in 1968 in Barcelona. After studying journalism he began his career in media and worked for TV, radio and newspapers. He then studied photography and soon developed a special interest in erotic male photography.
