The best gay saunas - worldwide

Gay saunas still enjoy huge popularity in many countries worldwide, since they offer the opportunity for men to meet other men and to have uncomplicated sex encounters. Our new Sauna Guide lists more than 650 saunas in 52 countries, giving the reader special information on each location. This allows the reader an easy choice of the right sauna at his vacation spot and tells the reader in brief which place fits his interests best.

Pictograms offer the reader further advice on the interior; colour photos make the selection ever easier. A description of the local sauna culture—which has its individual characteristics in every country—can be found in the introduction text of each country. In this way the Spartacus International Sauna Guide helps avoid disappointment and assist the reader in having fun with the local people. Whether on a business trip or on your vacation: This essential travelling guide is the best way to make sure that you'll find the places, where it's steamy and hot.
